Porsche Classic

Accessory highlights for your 996

Time changes everything –

but not your 996.

It's hardly surprising that the 996 is still as popular as ever. After all, it made history back in the 1990s when it heralded a new era: that of water-cooled engines in 911 models. From model year 1998, the 996 finally marked the end of the previous air cooling concept used by Porsche and was fitted with a more powerful version of the new water-cooled six-cylinder horizontally opposed engine. A turning point in Porsche history.

But this wasn't the only innovation. As well as the new engine concept, its chassis was also further enhanced and its body altered – becoming noticeably and visibly larger. So the 996 initiated not only a technical, but also a stylistic change. Amendments that paid off. After all, back then the 996 model range was the best-selling 911 series of all time.

A genuine success model, whose character was

as impressive then as it is now. So there's every reason to maintain its originality after all these years. And it's not a problem if you'd like to change the odd detail – using the matching genuine accessories that were developed for your model at that time. After all, you appreciate the 996 exactly as it is: authentic.

The following pages contain a small selection of the many options. We hope you enjoy discovering them.

Wheels

Roadholding isn't a matter of age.

Wheels have always made a crucial contribution to the sportiness of a Porsche. Nothing's changed. Little has also changed with regard to the appearance of your classic car's wheels. In short: their look and feel are as original as they were in the 1990s. With the

addition of modern roadholding. There's no need to compromise on either the look or performance of the wheels for your 996. Because even if you want to change something on your Porsche, it should still be contemporary. Just like back then.

18-inch SportTechno wheel*

Front axle 8J x 18 ET 50

Part no. 99636213651

Rear axle 11J x 18 ET 63

Part no. 99636214252

Sports tailpipes

The original exhaust sounds good – and looks even better.

The Porsche sound can still be refined. Even after two decades. And although your Porsche has operated at the highest levels of design and performance since day one – there was always room for

improvement. And still is. Genuine sports tailpipes from back in the day stylishly enhance the dynamics of your classic car. At first and last glance.

Sports tailpipes, four-tube look

Left

Part no. 99611198103

Right

Part no. 99611198203
Only for 911 Carrera 4S,
Model Years 2002–2005.

Left

Part no. 99611198101

Right

Part no. 99611198201

Sports exhaust system

Part no. 00004420021

Only for 911 Carrera,
911 Carrera 4S and 911 Targa,
Model Years 1998–2005.
Available from 12/2017.

Performance and design

The world moves on. But character stays the same.

Historic enthusiasm can still be improved. Just like performance. Because the Carrera rear spoiler will enhance your 996, not only visually but also aerodynamically. This rigid rear spoiler replaces the standard electric spoiler, emphasising the sporty

appearance of your classic car – and also ensures improved road handling. Just as it did in the 1990s. As well as today.

You now hold the key to the past. With this designer key, this is quite literally true.

Carrera rear spoiler

Part no. 99651290300G2X
Only for 911 Carrera until 07/2001.

Designer key

Part no. 00004400083
Only for 911 Coupé.

The best inspiration?

Your Porsche Classic experts.

You've now seen a small snapshot of the Classic options available for your Porsche 996. But there's much more to discover. Over 13,500 genuine parts for your model, to be precise.

Find out what these are from your local Classic Partner or Porsche Centre. After all, look and feel, aesthetics and an expert consultation are the best inspiration.

We guarantee that it's worth a visit.
