The concept sports car – advanced.

Accessories and retrofit options from Porsche Tequipment

We develop products which are more than accessories. For vehicles which are more than sports cars. And for customers that want more than just standard equipment. Porsche Tequipment is the sports car concept consistently developed further. Created for the lives of our customers. Developed and tested in Weissach, by the same engineers who design our vehicles. The result: accessories and retrofit products incorporating clever concepts with intelligent solutions. First-class design, maximum suitability for everyday use and Porsche quality – combined. And with guaranteed warranty. For more Sportscar Fascination.

MORE ENGINEERING SKILL AT PORSCHE EQUIPMENT.

**The limits of feasibility?
Are constantly being redefined.**

Our products are developed and tested with the whole vehicle in mind in Weissach – one of the world's most modern development centres. By the same Porsche engineers who made your car. Perfectly tailored to your Porsche and your lifestyle. Thus, we leave nothing to chance during their development and testing. All our products are trialled under the toughest conditions. From design to approval. From safety to performance. From functionality to resilience.

1. Aerodynamics under scrutiny.

Products such as our SportDesign packages and Aerokit 911 Turbo have undergone rigorous testing in the wind tunnel. Our high-tech wind tunnel sets new standards. Its fan, measuring eight metres in diameter and engineered with extremely lightweight carbon blades, is able to generate wind speeds of up to 300km/h. What's more, the floor surface rolls along underneath the vehicle at the same speed as the wind throughout the aerodynamic evaluation. The result? A headwind that delivers, thanks to perfect design and first class drag coefficients.

2. Extreme testing for wheels and tyres.

Porsche high-performance tyres are distinguished from other tyres particularly in terms of their geometry, the rubber compound and their rigorous testing, which involves no fewer than 33 important criteria. The foundation for these tests is laid during outings on the Nürburgring. The values observed there are used as input parameters for the subsequent testing of our wheels. Such as the endurance component of the biaxial wheel test (ZWARP) – which simulates the long-term strain associated with extreme driving styles.

3. Performance check for transport systems.

Our roof boxes and transport systems are designed for performance, just like a Porsche. Transport systems are actually more complex than many people think. Braking safety, noise levels and fuel consumption are just some of the points that are tested in Weissach, but we're also concerned with ease of operation. Therefore, our roof boxes have a locking system on both sides. This simplifies both the loading and unloading of the box.

MORE EQUIPMENT ACCESSORIES ONLINE.

More possibilities.
These can also be discovered in digital format, of course.

Whatever you have planned, your Porsche is an ideal fit for your lifestyle. And with every product from Porsche Tequipment, you can still make further refinements and improvements. Find inspiration in our Tequipment accessories finder. Any time, anywhere.

Why wait? Take an instant, detailed look at your new Tequipment accessory online. Simply scan the QR code or visit www.porsche.co.uk/tequipment directly on our website to quickly and conveniently learn about all the products and prices for your model.

More Taycan

100% electric. 100% Porsche. And with products from
Porsche Tequipment, 100% tailored to you. For a thrilling future.
For an electrifying lifestyle.

LIGHTING AND LIGHT FITTINGS.

**You illuminate bends.
And vice versa.**

Sometimes a single glance says it all. The optional lighting systems from Porsche Tequipment not only guarantee more visibility, but also an eye-catching appearance.

The striking LED main headlights with matrix beam in Glacier Blue including Porsche Dynamic Light System Plus (PDLS Plus) lend your Taycan an even more unique design.

Good visibility and good looks are sometimes one and the same thing.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

- 7 20-inch Taycan Equipment Design wheel painted in black (high-gloss)
- 8 20-inch Sport Aero wheel
- 9 20-inch Taycan Turbo Aero wheel

WHEELS.

Designed for performance, down to the very last inch. Just like your lifestyle.

Performance doesn't end with the wheels. On the contrary, that's where it begins. Because transmission of torque primarily involves transmitting impetus. Quickly, directly and without compromising. And delivering performance – with every hundredth of a second. In every situation.

Visit www.porsche.com/equipment to view all our Equipment products online.

For general tyre information, please refer to page 130 onwards.

Wheels with winter tyres

- 10 20-inch Taycan Equipment Design wheel
- 11 20-inch Taycan Equipment Design wheel painted in black (high-gloss)
- 12 20-inch Sport Aero wheel
- 13 19-inch Taycan S Aero wheel

INTERIOR.

**New horizons?
Can also be discovered in the interior.**

The Taycan interior has ample space for the important things in life. Such as your personal freedom, for example. Our range of optional equipment allows you to give the interior of your Taycan your own personal touch. An extremely sporty signature, of course.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

- 1 Porsche Crest on storage compartment lid

- 3 Ashtray insert
- 4 Door sill guards in brushed aluminium in black, illuminated
- 5 Door sill guards in matt carbon, illuminated

More 718

Built for an uncompromising desire for freedom. For the sport of it. And for you. Add your own chapter to the story. And make your 718 just as sporty as your busy lifestyle.

SPORTDESIGN PACKAGE.

Those who go their own way also leave the well-trodden paths when it comes to design.

It's your life. Your adventure. Your stories. For you, the routes of others do not count. You define your own destinations. So it's no wonder that you only listen to one thing when designing your 718: your own imagination.

Create an even more dynamic appearance with our SportDesign packages. The uniquely designed front and rear aprons, which can be optionally painted in the exterior colour or partially in black (high-gloss), impressively emphasise the sporty side of your 718.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

WHEELS.

Those who want to get ahead in life need traction.

Pure performance starts from the ground up: at the wheels. After all, they are what ultimately transmit the power of your sports car to the road. And guarantee power output, driving pleasure and, of course, an unmistakable look.

Wheels with summer tyres

- 1 20-inch Carrera Sport wheel
- 2 20-inch Carrera S wheel
- 3 20-inch Carrera S wheel painted in satin platinum

WHEELS.

Designed to leave your mark,
down to the very last inch.

The exciting stories in life rarely follow a pre-defined route. Nevertheless, to ensure that you always arrive at your destination feeling relaxed, there is one thing you should never be without: the right wheels from Porsche Tequipment. They impress with a great look, dynamic performance and safety and will accompany you on every journey, without compromise.

LIGHTING AND LIGHT FITTINGS.

Suddenly, all the world's bends are visible.

A Panamera naturally attracts attention. It gives you a twinkle in your eye. How do you further enhance this? With lighting systems from Porsche Tequipment. These not only ensure improved visibility and optimum illumination of the road, but also set visual accents – of the sporty kind, of course. The LED rear lights, including in the tinted light strip on the rear, leave a lasting impression. And the tinted LED main headlights with matrix beam including Porsche Dynamic Light System Plus ensure you have the best view.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

- 2 SportDesign package

SPORTS EXHAUST SYSTEM AND SPORTS TAILPIPES.

Goosebumps. At the touch of a button.

The Porsche sound can also be further enhanced. Thanks to the sports exhaust system – featuring modified silencers and two round twin tailpipes in a distinctive design. By simply pressing a button, you can change the sound to match your driving behaviour – from a throaty output during normal road driving to a distinctively more aggressive tone during performance use.

The sports tailpipes have a distinctive design and are available in either silver colour or black.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

Other Tequipment options not shown:
sports tailpipes in silver colour

WHEELS.

The foundations for every great performance are always built from the ground up.

When it comes to driving performance, exceptional wheels are key. Not only does a sports car require power, it also needs to be able to transfer this to the road. Wheels from Porsche Tequipment create the perfect conditions for this. After all, they combine sophisticated technology with outstanding driving characteristics and an individual appearance.

More Macan

As if made for an intense lifestyle. Road-hugging, yet with ample space for hobbies and recreation. With individualisation options from Porsche Tequipment, you not only extend the scope of your Macan, but also give it your very own personal touch.

SPORTDESIGN PACKAGE.

**It's all a matter of personality.
Especially when it comes to appearance.**

Higher, faster, further? Why not simply more individual for a change? After all, you can also enhance the notion of performance when it comes to appearance.

A powerful performance and a powerful appearance are sometimes one and the same thing. Developed specifically for the Macan, the SportDesign package creates an unmistakable

look and an even more imposing appearance. It comprises a distinctive SportDesign front apron and SportDesign rear apron painted in the exterior colour, as well as a roof spoiler separation edge and a rear mid-section, also available in the exterior colour.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

More Cayenne

Designed for adventure. A pioneer for all those who enjoy leaving the beaten track. Together with you, the Cayenne pushes the boundaries of everyday driving – with the help of accessories from Porsche Tequipment.

SPORTDESIGN PACKAGE.

Total freedom can also be creative freedom.

Your life, your decisions. When it comes to configuring your sports car, you should only go one way – your own.

SportDesign front apron

Clearly defined. Exactly as you would expect of a genuine performance athlete. The distinctively designed front apron that is included in the SportDesign package is painted in the exterior colour and has an air intake grille in matt black. Its striking appearance is impressively enhanced by wheel arch extensions, sideskirts and the Cayenne Turbo rear section.

SportDesign package

Sporting challenges? The Cayenne accepts. Even when they involve an extremely dynamic appearance. The SportDesign package creates an unmistakable look and an even more imposing overall impression. It comprises a distinctive front apron painted in the exterior colour with additional air intakes, a distinctive rear apron with a paint finish, sideskirts and prominent wheel arch extensions.

Restricted off-road use.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

Carbon Design package

The material derived directly from motorsport. Your source of inspiration. With the Carbon Design package, you can create a racing look – instantly. Accents are added by the air intake grilles painted in black (high-gloss). The airblades on the front end finished in carbon and the diffuser in carbon do more than hint at the car's race track heritage.

Visit www.porsche.com/tequipment to view all our Tequipment products online.

Genuine accessories

Standing still? Not an option. After all, there is still much to discover and experience. And countless adventures await. Our accessories will help you achieve your goals – without the need for compromise.

CAR COVERS.

More Porsche diversity.
Even when you're not driving.

A pit stop can also be optimally combined with performance. With custom-fit Porsche Tequipment car covers, for example. Be these indoor or outdoor, they provide ideal protection against dust, sunlight, weathering and dirt. And also have an eye-catching appearance. You can choose from various designs, depending on your model. Our way of showing that downtime certainly doesn't have to be boring.

- 1 911 GT3 indoor car cover
- 2 911 GT3 RS indoor car cover
- 3 Individual car cover (GT models)*
- 4 Individual car cover Plus (718 models)*
- 5 Individual car cover Plus (911 models)*
- 6 Indoor car cover

Other Tequipment options not shown:

CHILD SEATS.

**More butterflies in your stomach.
Even for the smallest passengers.**

Travelling in a Porsche is definitely a thrill, for little ones too. Which is why Porsche Tequipment offers specially designed child seats. They meet strict safety standards and have been specially tested and approved for Porsche cars, thereby providing protection and comfort for passengers up to 12 years of age. The fabrics are breathable, hypoallergenic and easy to clean, with a removable and washable cover in black and grey with contrasting red trim.

Porsche child seats can be conveniently and safely secured to the seat using ISOFIX or the three-point seat belts. For extra safety, the Porsche Baby Seat and Porsche Junior Seat ISOFIX have an independent five-point belt system.

Child seat underlay

To protect the surface of the car seat from dirt and damage, a child seat underlay is available as an option.

Prior to installation, please refer to the child seat operating instructions for your vehicle, where you will find all the important information about the appropriate child seats for your model and the correct positioning of these in your car.

Not all products are available for every model. Please refer to our Tequipment accessories finder for all the options for your car.

lockable plastic box,
can be opened on both sides

TRANSPORT.

**More expansion options.
For your own horizon.**

A hunger for thrills, a desire for adventure or the joy of discovery? No problem. The intelligent transport systems from Porsche Tequipment ensure that you always have the space you need for your equipment wherever you are. Because no matter what you have planned or where the journey will take you, our roof boxes and intelligent systems transport far more than just athleticism.

Not all products are available for every model. Please refer to our Tequipment accessories finder for all the options for your car.

Your bikes have never been transported as dynamically as this before.

Got lots of plans? That's good. After all, your Porsche is a master at combining sporty driving with your other favourite sports – such as road or race cycling. No matter where your next adventure is destined to begin: your Porsche will not only take you there safely, but also your bike, thanks to our accessories.

Bike carrier
For all standard bikes up to a frame diameter of 100mm. With an anti-tipping mechanism to hold the bike securely in position. Capacity for up to three bike carriers at a time, weighing maximum 20kg.

Roof transport system
All attachments for various requirements can be fixed to the roof transport system. Two lockable aluminium cross members offer effective anti-theft protection. For more information about the maximum permissible roof load that can vary depending on the vehicle, please refer to your car manual.

Racing bike carrier
Capacity for up to two racing bike carriers. With quick-clamping device for the front fork and length-adjustable rear wheel mount. Also suitable for bikes with a carbon frame. The front wheel can be optimally stowed in the front wheel holder on the roof transport system or in a bag in the interior.

Rear-mounted bike carrier
Lockable, foldable rear-mounted carrier in black aluminium for up to two bicycles (maximum weight per bike: 30kg). Mounts quickly on the towbar system without the need for any tools. Also suitable for electric bikes (2 x 30kg).

Not all products are available for every model. Please refer to our Equipment accessories finder for all the options for your car.

**More flexibility.
Whatever your plans may be.**

Your Porsche offers plenty of space for the important things in life: personal freedom, for example. How this should be expressed exactly is, of course, entirely down to you. Because whether you need a matching luggage set for your next trip, or would like to have the ability to carry more, the accessories from Porsche Tequipment provide the optimum solution.

Not all products are available for every model. Please refer to our Tequipment accessories finder for all the options for your car.

PROTECTION.

More scope. Is indispensable, especially for explorers.

Your life is not designed for boredom. Just as well. After all, neither is your Porsche. And our products ensure that everything you transport is optimally protected, so that before, during and after your journey you can always think of what matters most – driving pleasure.

CAR CARE.

**More sports-car-like quality.
Even during pit stops.**

Special cars deserve special attention. With its exclusive 'White Edition' car care range, Porsche has therefore developed a programme that offers a wide selection of products for protecting and maintaining the interior and exterior of your vehicle.

The 'White Edition' car care products are supplied in a high-quality Rimowa trolley case, providing perfect storage for all the products. The trolley case fits every Porsche model and is sturdy and ultra-light. The foam inlay can be removed if necessary, allowing the trolley case to be used as a high-quality travel accessory.

Also typical of Porsche Tequipment is the unique design of all the bottles. Developed together with the designers from Studio F. A. Porsche, it is timeless and inspired by the shape of the Porsche Crest. Also typical Porsche: the extensive test procedure. Because all our car care products are tested under special conditions in Weissach – just like every Porsche. They meet the highest quality standards.

AUDIO AND COMMUNICATION.

Top athlete or adventurer – you decide.

Especially if you want to discover unknown territory, you should calmly listen to the inner voice of your Porsche. Because the navigation module for Porsche Communication Management (PCM) will show you the most direct route to your next big adventure. And options such as cruise control and Power steering Plus will provide the necessary calm on the way to your destination.

Not all products are available for every model. Please refer to our Tequipment accessories finder for all the options for your car.

E-PERFORMANCE.

Energetically embracing the future.

Charging Dock

The front of the Porsche Charging Dock is made of black safety glass featuring a silver-coloured 'PORSCHE' logo. It allows the Porsche Universal Charger (AC) to be installed, for example on your garage wall. It is suitable for all common industrial electrical outlets. The Charging Dock has a connector for the vehicle plug on both sides. The up-to-7.5m vehicle cable can be wound into the casing, from which the charger can be removed at any time. Can also be used outside. Lockable.

The Porsche Universal Charger (AC) shown in the picture and the optional charging cable are not included. Please contact your Porsche Centre for assembly information.

Not all products are available for every model. Please refer to our Equipment accessories finder for all the options for your car.

Winter accessories

Driving a sports car 365 days a year? Of course. A Porsche is an all-year-round athlete. With the appropriate winter accessories and car care products from Porsche Tequipment, it is ideally prepared for the challenges of winter.

WINTER ACCESSORIES.

**More optimum performances.
Even at sub-zero temperatures.**

When others switch down a gear, you simply shift up a gear. With a Porsche, this is not a problem. After all, it guarantees maximum performance even at sub-zero temperatures. Just like the accessories from Porsche Tequipment. After all, they are an ideal fit for your Porsche. And the cold winter months.

- 1 Snow chains

- 2 Concentrated winter glass cleaner

Technical data and information

General tyre information

All tyres fitted by Porsche meet Porsche specifications, as indicated by the special designation (NO, N1, etc.) on the sidewall. Tyres that do not carry this designation are not recommended for use on your Porsche. For logistical and technical reasons relating to the production process, we are unable to accept orders for a particular make of tyre. The make of tyre may differ from that shown. If your vehicle documents do not contain details of the correct wheel and tyre combination, please request a technical approval certificate from your Porsche Centre.

Energy efficiency class, wet grip class and rolling noise for the Taycan:

Tyre type	Size	Energy efficiency class/rolling resistance	Wet grip class	External rolling noise* (class)	External rolling noise (dB)
Summer tyres	245/45 R 20	B	A		71

	295/40 R 20	E–C	C		73

* Quiet rolling noise, Moderate rolling noise, Loud rolling noise.

Note on the use of winter tyres

Summer tyres provide optimum performance at ambient temperatures above approx. +7°C. Below this point, the tyre compound begins to harden and braking distances are increased. We therefore recommend that you fit winter tyres during the colder months of the year so that you can drive your vehicle safe in the knowledge that it will continue to meet our high standards for driving safety, even at low temperatures. All winter tyres approved by Porsche are identified by an 'N' designation on the sidewall.

Additional benefits: the tyres are noise-optimised. There is also less rolling resistance, which helps reduce fuel consumption.

Tyre braking behaviour for all models:

Braking with ABS on a wet road (80–0km/h) at +3°C

Braking with ABS on snow (40–0km/h)

Examples: braking distance in % (measured with the use of tyres conforming to the Porsche specification). Braking distances optimised by the use of Porsche winter tyres. Absolute values may vary.

Technical data fuel consumption/emissions/range/efficiency classes:

	Taycan Turbo models	718 models	911 Carrera models	911 GT3 RS	Panamera models	Panamera E-Hybrid models	Macan models	Cayenne models	Cayenne E-Hybrid models

Efficiency class	B	G	G	G	G	F–D	G	G	G–E

The average CO₂ emissions value of all new vehicles sold in Switzerland is 137g/km.

1) Data determined in accordance with the measurement method required by law. Since 01 September 2017 certain new cars have been type approved in accordance with the Worldwide Harmonised Light Vehicles Test Procedure (WLTP), a more realistic test procedure to measure fuel/electricity consumption and CO₂ emissions. From 01 September 2018, the WLTP replaced the New European Driving Cycle (NEDC). Due to the more realistic test conditions, the fuel/electricity consumption and CO₂ emission values determined in accordance with the WLTP will, in many cases, be higher than those determined in accordance with the NEDC. This may lead to corresponding changes in vehicle taxation from 01 September 2018. You can find more information on the difference between WLTP and NEDC at www.porsche.com/wltp. Currently, we are still obliged to provide the NEDC values, irrespective of the testing method used. The additional reporting of the WLTP values is voluntary until their obligatory use. As far as new cars (which are type approved in accordance with the WLTP) are concerned, the NEDC values will therefore be derived from the WLTP values during the transition period. To the extent that NEDC values are given as ranges, these do not relate to a single, individual car and do not constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Extra features and accessories (attachments, tyre formats, etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics and, in addition to weather and traffic conditions, as well as individual handling, can affect the fuel consumption, electricity consumption, CO₂ emissions and performance values of a car.

2) Guide value determined using a WLTP subcycle (including taking account of auxiliary equipment, such as air conditioning).

3) Valid in the countries listed only.
