## PERFORMANCE PRINCIPLE ENGINE OIL

Welcome to Performance Principle, where the Porsche Sport Driving School provides driving tips to help make your journeys more safe and more enjoyable in your Porsche. In this issue we look at the engine oil.

The engine oil light on my dashboard is on. What does it mean? And what should I do?

*Mr. Che, Shanghai*

An ample level of engine oil in your Porsche plays an integral part in achieving optimal performance. Enough oil increases the reliability, longevity and fuel economy of your Porsche's engine, all the while facilitating its everyday operation.

If an issue arises with the engine oil in your vehicle, the engine oil light will illuminate on the dashboard to notify you. This can mean one of two things: either there is too much oil in the engine, or too little. If you are driving when this happens, safely get off the road, make sure your Porsche is on level ground, and turn the engine off to properly determine the engine's oil level.

In the event of too much oil, simply take enough out until the engine oil light turns off. If the oil level is low, add more and check to see if the light turns off. If it does not turn off, either there is a leak in your engine or it may be

consuming more oil than it should. To ensure the safety of your vehicle, we recommend that you drive to your nearest Porsche Center, where our certified technicians will be able to rectify the issue for you.

Regular maintenance and upkeep goes a long way in preventing situations like these. As such, we recommend you change your engine oil once a year or every 10,000 km. We also recommend that you use Mobil 1 high-performance engine oil, tailored for your Porsche.

For those times when the unavoidable happens, you can call the Porsche Assistance Hotline on **400 8100 911**, where the Porsche team will be happy to assist you.

For more information about the engine oil, please contact your local Porsche Centre. Our professional staff would be delighted to assist you.

*If you have any queries or require more information, please feel free to contact us at [sportdrivingschool@porsche.cn](mailto:sportdrivingschool@porsche.cn).*
