Porsche Classic gear oil 75W-90 GL-5, 1 liter

Part no. PCG04321052

Porsche Classic Manual gear oil (75W-90 GL-5) is a high-performance oil suitable for heavy-duty transmissions in models 924, 928, 944 and 968, as well as for the transmissions fitted in all classic 911 models (up to type 996) and in the Porsche Boxster, type 986. Thanks to synthetic technology, the oil has outstanding properties, including high-pressure resistance, shear stability and lubricity at extreme temperatures. The oil also enables optimal synchronization and reduces component wear.

Wheels/brakes

Brake drum front
Part no. 69534106102

Produced by the original supplier and, as always, "Made in Austria". The perfect brake drum for your 356 B.

An investment in road safety that will be worth your while. Worn brake drums or drums that are no longer round can cause a wide range of faults. Brakes that pull unevenly, pulsate and have a tendency to lock are also a warning sign, just like excessive pedal travel. The brake drums must be replaced when one of these signs is discovered.

911 G model (1978–1986)

Optimum adjustment to fit the bodyshell is a key requirement for Porsche quality. Because even one's second skin has to fit like a tailored suit. Here, we're talking about millimeter precision.

An extensive range of measures has enabled the experts at Porsche Classic to achieve substantial improvements in the production quality of fenders and side panels for the Porsche 911 (model years 1965 to 1994). This also means that, for the first time, it has been possible to reissue the thin sheet metal panels for the legendary 911 Carrera RS 2.7 (a prototype is shown in the photo). In all, just 1,580 of these vehicles were manufactured in 1972 and 1973. Porsche Classic redefined every single production step to ensure a lasting improvement to the parts' dimensional accuracy, making it easier to adjust the parts to fit the vehicle. The original series production tools were redesigned and optimized, and new testing devices were introduced to ensure dimensional accuracy. For example, each of the 30-odd fender variants was fit on a vehicle or testing device as a trial. Every process step – including the time-consuming manual surface finishing work – was also documented to ensure consistent quality. Porsche Classic is making a statement in the truest sense of the word, and that statement is that classic cars have lost none of their value. Reissued Porsche Classic Genuine Parts proudly display the Porsche trademark (please also see pages 2 & 3 or 114).

Porsche Classic Car Care Set

Part no. PCG90101041

The relationship you have with your Porsche is something very special – and long-term relationships need special care and attention. The 17-piece car care set from Porsche Classic is the best way to do this. It contains a combination of different products for all exterior surfaces and is suitable for all Porsche paint generations. Developed in-house, all car care products in this set were tested under the toughest conditions and are designed to meet the exact requirements of your vehicle. Truly authentic: the high-quality, classic-style storage bag with a pepita pattern.

One goal: to feed your passion for a traditional driving experience and your love for classic vehicles, so that you can keep turning heads in your classic car for a long time to come.

The 17-piece Porsche Classic Car Care Set is available from your Porsche Classic Partner and your Porsche dealer. If you run out of one of the care products, you can of course reorder it separately to ensure that you always have a complete set.

The 17-piece car care set contains:

- car shampoo
- polish
- hard wax
- cleaning clay
- wheel cleaner
- tire cleaner
- plastic protector
- glass cleaner
- 2x microfiber cloths
- chamois leather
- sponge set (3-part: sponge, wax applicator, polish pad)
- brush set (3-piece)

Available in all countries excluding Russia and China.

All Classic models

Wheel cleaner with brush set

Part no. PCG04400087

Wheel cleaner with brush set. Completely acid free. Removes even stubborn brake wear particles. Includes three-piece brush set that effectively removes dirt when used in conjunction with the wheel cleaner.

Wheel cleaner, separate: PCG90102340

All Classic models

Tire cleaner

Part no. PCG90103141

Ultimate protection. The special protective agents in the Porsche Classic tire blackener penetrate deep into the rubber, providing lasting protection for the tires in places that are particularly exposed to the sun.

All Classic models

Polish

Part no. PCG90101441

A brilliant foundation. The polish is suitable for all types and generations of paint. The high quality stems from the consistent, homogeneous structure of the abrasive grains. This prevents micro-scratches and guarantees smooth results. The abrasive grains are also produced without the use of plastics.

Contents: 250 ml.

All Classic models

Plastic protector

Part no. PCG90103041

A combination of active agents consisting of special care oils and light stabilizers prevents diffusion of the plasticizers. Visible success: keeps plastic and rubber permanently supple; prevents cracking and aging.

Contents: 250 ml.

All Classic models

Hard wax, liquid

Part no. PCG90101640

Perfect results. Long-term preservation, maximum shine and lasting protection thanks to special nanopolymers. The paint on your classic car can enjoy the best of both worlds with this liquid hard wax. The reason is that even though it contains over 40% carnauba wax, the world's hardest natural wax, it's still easy to apply.

Contents: 250 ml.

Porsche Classic silicone remover

Part no. PCG04400093

Specially developed for your Porsche: the Classic silicone remover.

It's suitable for year-round use in vehicles with an intensive washer system. It's frost-proof down to -20 °C.

Adapted from Motorsport: The silicone remover can be used to remove even the most stubborn silicone stains. It can also be used as a cleaning agent for the windows of your classic car if they are very dirty.

Excluding USA.

Hand lamp

Part no. 64472260101

Such an attractive light is very rare: This new edition is based on an original hand lamp that was part of the accessories catalog for the Porsche 356 back in 1963. Featuring LED lights with two different lighting modes and battery operation, this hand lamp combines classic design with modern technology. The hand lamp also has a rubber-coated magnet for securely attaching it to the vehicle. Another eye-catching feature is the leather case embossed with the Porsche Crest. The design of the case is based on the original seat design from the Porsche 356, offering the perfect combination of timeless design and modern technology.

“Adventure” decorative decal

Part no. PCG04480600

If you're looking for adventure, you don't have to hide. That's why the "Adventure" decorative decal features strong color accents. With a wrap in Indian Red featuring contrasts in Gray. The "hockey stick" design extends up to the D-pillar and enhances the sporty impression. Just like the "PORSCHE" logo, which is cut out to make your vehicle's paint color visible.

Cayenne E1 (2003–2010)

“Hunt” decorative decal

Part no. PCG04480700

Maybe you're on the hunt for the next bend or a rarely used off-road trail. Then the "Hunt" decorative decal is your ideal sporty companion. The wrap in Hunting Car Olive extends to the D-pillar and is a "hockey stick" design. The contrasting Gray color and the recessed "PORSCHE" logo show that you're serious about off-road driving pleasure.

Cayenne E1 (2003–2010)

“Rally” decorative decal

Part no. PCG04480500

Why shouldn't your Cayenne look stylish in mud and sludge too? The "Rally" decorative decal combines the colors Ice Race Blue and Gray, with the starting number "11" in White on the front doors. The large "Cayenne" and "PORSCHE" logos complete the special race feeling of a real rally.

Cayenne E1 (2003–2010)
