IN THE GREEN

GREEN IS MORE THAN JUST A FASHION STATEMENT FOR PORSCHE.

But it is no coincidence that the color is superbly suited to highlight the efficiency campaign of **Porsche Intelligent Performance**. Following the premiere of the 918 Spyder featured last time, this issue of *Christophorus* also is dedicated to future developments in mobility that are already being put into practice. The green circle will accompany these topics and you throughout the magazine. There are many good reasons to follow the Spyder green, and just as many facets of Porsche Intelligent Performance.

GREEN REMAINS THE COLOR OF PROGRESS. TAKE A LOOK FOR YOURSELF.
