Porsche Classic Vehicle Tracking System App
- Quick Start Guide -

GET IT ON **Google** play | Download on the **App Store**

→ **Now available for download: The Porsche Classic VTS App*** ←

In case of a theft, the security center is alarmed. You will be contacted immediately via phone. You determine the phone numbers to be dialed in the contract.

If you detect a theft of your Porsche Classic vehicle yourself, please contact the security center.
The number is dialed when hitting the SOS button in the app.

1. Insert username. It equals your customer number.
2. Insert password. You receive it via SMS during the process of activation.
3. Choose your vehicle and start.

Trip Report
Overview about all driven routes, incl. duration, speed, distance, etc.

Geo Fence
Setting of an alarm that is activated when a defined area is entered or exited.
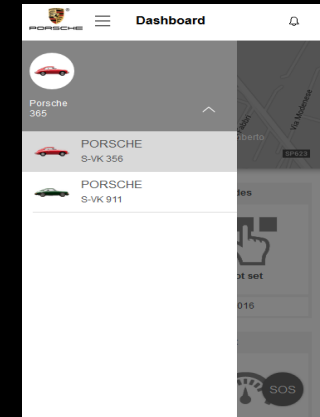

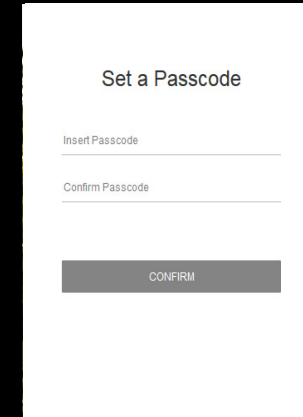

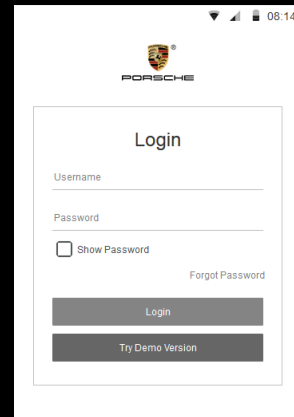

Special Modes
Selection of a workshop or transport mode for the temporary deactivation of the alarms of your Porsche Classic VTS, e.g. during transport or service.
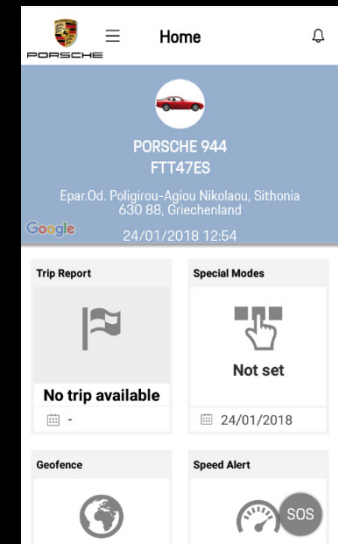

Speed Alert
Setting of an alarm that is activated when a defined speed is exceeded.

*) If the app is not available in your country, please download the Vodafone App "My Connected Car"
