PORSCHE

Traditional craftsmanship, historical original tools combined with new, innovative techniques, and last but not least, the expertise of the Porsche Classic team: This is the philosophy behind each of the spare parts items – of which there are more than 60,000 – that Porsche Classic keeps in stock and sells via the global Porsche sales network. This approach means that all Porsche standards relating to technology, safety and quality are fulfilled – even in the case of new parts editions.

Every part features the Porsche trademark, which stands for quality and originality, both of which are key characteristics when it comes to keeping valuable classic Porsche cars in top condition.

A mark of quality:
All products manufactured by Porsche – and therefore all Porsche Classic Genuine Parts – are marked with the Porsche trademark known as the “P in the triangle” either directly on the part itself or on the sales packaging.

Lara @thatporschegirl

In Hollywood she's a precision driver, on Instagram she's known as @thatporschegirl. The Californian doesn't give much away – aside from the fact that Porsche is her absolute passion, of course. In her eyes, it's her 911 T from 1969 that's the star. According to Lara, this original 911 is even more well known in the community than she is. Alongside her interest in classic vehicles, Lara is also committed to ensuring that more women get involved in the scene and present themselves with confidence.

ORIGINALE 07

Dear reader,

Palm trees. Sunshine. To the left, the coast; to the right, the mountains. Behind me, my flat six engine rumbling happily; in front of me, my favorite road the Pacific Coast Highway. I love to drive my 1969 911 T along this road near my home in Southern California. You can let loose, you can go fast, and there are breath-taking views around every bend.

I'm not writing this to make you envious, if you don't live in California. On the contrary. The majority of my followers on Instagram don't live here, but they want to see the sunshine and get the feeling of beach living. For them, it's like a little escape from everyday life. My friends and followers travel to my world. Drive to the beach with me. Meet my friends. Go on a drive with me. Drive a Porsche! It makes me so happy to inspire them.

I'm not the star – my car is. In particular, its the unique green color that has proven to be very popular. A true collaboration, the paint was lovingly mixed by my boyfriend. It's our own creation. It was inspired by a 356 that I had seen more than ten years ago that had stuck in my memory. This color is my personal touch. Otherwise, I love my vehicle to remain as faithful to its original condition as possible. Quite honestly, the more modern cars become, the more we lose that classic feeling they give us. When I get into my 911 T, it's like a perfect journey back in time for me.

When people come up to talk to me, it's because they recognize my car. The early models like mine represent classic purism, sophistication and, of course, reliability. I like to compare my car to a French women's sense of style and self-confidence. Everything is understated, they prefer classic lines – but they also value sophisti-

cated details. It's effortless elegance. In my eyes, Porsche represents all of this too. Porsche has always been my brand.

I'm very grateful to Porsche because they take notice of women in a serious way, as they want women to present themselves with confidence in the automotive environment. Unfortunately, even now, we are often not taken seriously in the car world. Rest assured that we will be in the future. I'm committed to making that happen.

I'm very pleased that more and more women – especially young women – are inspired by the scene and by classic Porsche cars, because I want to see more women behind the wheel and as owners of them. This is why I really appreciate Porsche Classic giving me the opportunity to share my vision here.

Through their reliable and specialized provision of spare parts, Porsche Classic plays an essential role in ensuring that our vehicles stay on the road, thus keeping the car scene alive. A scene in which, hopefully, many more women will discover their passion for classic Porsche cars.

Warm wishes,
Lara

Contributors

Johannes Bauer

Photographer of the heroes

Johannes Bauer is a Stuttgart-based photographer working in still life, product and architecture photography. He strikes a balance between commercial and artistic projects, always in search of an experimental and contemporary approach. He has also applied this approach to this issue of ORIGINALE, in which he uses smoke to find brand-new perspectives of the heroes from the Porsche Classic catalog.

Sebastian Sieberg & Sebastian Zimmermann

Photographers

The two photographers from the Ruhr area, also known by their duo name SSSZphoto, combine two perspectives, two times pure enthusiasm for the car and everything that moves. They see photography as a road trip where the journey is the reward. They welcome something on a bigger scale, with surprises along the way, and have a fine eye for detail. For this issue of ORIGINALE, they staged the bumper guards for the F model with Eve Scheer and stopped by Tom Gädtke's garage with their cameras.

PCG91101000 (size 10)

Hard-wearing assembly gloves (1 pair) in a design characteristic of Porsche Classic, for use in the workshop or in the event of a breakdown. In particular, the parts of the gloves frequently put under significant strain have been heavily reinforced to ensure a good grip. The "PORSCHE" logo superimposed on the back of the hand in durable, black rubber is reminiscent of seat fabric designs well-known from their use in classic vehicles. The hook-and-loop fastener also bears the "PORSCHE" logo. The rear edge of the hand features an integrated magnet to help with the fitting of screws and other small magnetic parts.

Certified as personal protective equipment (PPE) against mechanical risks according to DIN EN 388 (2 1 1 X).

The screws shown are for demonstration purposes only and are not included in the scope of delivery.

964 (1989–1994)

Porsche Classic Tool Bag for 993*

Part no. PCG99372110

The design of the Porsche Classic tool bag for the 993 was inspired by an interior combination that was popular for Porsche 993 models at the time. The outside of the bag is made of black perforated leather and the inside is Cashmere Beige. The center of the bag is adorned with a scaled-down reproduction of the Porsche hood crest from the Porsche 993, which – for the first time ever – features solid black "PORSCHE" logo. The bag is fastened with the well-known "Tenax" fasteners.

Contents:

- combination spanner (8, 10, 13, 18, 19 mm)
- wheel nut wrench,
- retaining wrench for belt pulley, 24 mm
- 3/8-inch ratchet wrench

993 (1994–1998)

* The contents have been reconstructed based on the original tool bag and reissued with the help of the technical drawings of the tools from the original supplier from that time. In the final step, the Porsche Classic experts have given the bag some technical and visual upgrades and also added some additional useful tools.

Porsche Classic Tool Bag for 928*

Part no. PCG92872110

The Porsche Classic tool bag for the 928 comes in the typical psychedelic Pasha pattern of the 1970s and early 1980s. The bag features a reproduction of the crest on the intake manifold of the early Porsche 928 models. In addition, the design of the bag fasteners is based on the characteristic seat adjustment buttons from the early Porsche 928 models.

Because the tools are exact reproductions of the original tools in terms of their size and shape, they can be stored in the original tool board in the luggage compartment of the Porsche 928, or, for a truly authentic style, they can be carried in the tool bag.

Contents:

- spark plug wrench
- cylinder for spark plug wrench
- wheel nut wrench

928 (1978–1995)

Porsche Classic Tool Bag for 924, 944 & 968 *

Part no. PCG94472110

The tool bag for the Porsche 924, 944 and 968 models is made from rapport fabric, which was typical for all Porsche models from the transaxle era. The center of the bag is adorned with the new edition of the characteristic Porsche Crest from the glove compartment latch of the early 924 and 944 models.

Contents:

- double open-ended spanner, 8x9, 10x11, 12x13, 14x15, 17x19

Porsche wheel bag set, size L

Part no. PCG04462000

For tires with a circumference of up to 2,070 mm and a diameter of up to 660 mm.

For tire sizes of 16–19 inches.

The Porsche wheel bags (size L) in a 4-piece set provide a clean way to store complete wheels: the bags are particularly durable thanks to the high-quality materials used and the first-class craftsmanship. The sewn-on pocket ensures secure storage of wheel bolts after wheel changes. The wheel bags also feature a position drawing with a marking to ensure that the wheels are assigned correctly.

A mark of quality:

All products manufactured by Porsche – and therefore all Porsche Classic Genuine Parts – are marked with the Porsche trademark known as the "P in the triangle" either directly on the part itself or on the sales packaging.

Please only use genuine Porsche spare parts for your vehicle. You can obtain these parts from authorized Porsche dealers. Your Porsche Partner is familiar with the verified range of parts and will be happy to advise you. Porsche will not accept any liability for damage caused by the use of spare parts or accessories not authorized by Porsche.

The safety of the vehicle may be affected, even if a supplier of accessories or parts has obtained a general operating license. The huge variety of products available on the accessories market means that Porsche is not able to verify such parts. Please note that the guarantee for your vehicle may also be affected if you use parts that are not authorized by Porsche. Porsche reserves the right to alter the design, equipment and scope of delivery without prior notice. Color tones and materials may differ from those illustrated. Errors excepted.

Due to country-specific legislation and requirements, product contents may differ from those described and individual items may not be available for all models in certain countries.
