## The dream of the sports car.

"In the beginning, I looked around and could not find quite the car I dreamed of. So I decided to build it myself."

*Ferry Porsche*

A big dream has to be fought for. And so does a bold vision. The next victory? Rarely will it simply fall into our lap. Often, though, there are innate factors we must first fight against: resistance, conventions, and rigid patterns of thinking.

Whatever we fight for or against, nothing is achieved without passion, grit and determination. Ferry Porsche gave everything for the sports car of his dreams. His dream came true. Not because he hesitated, waited or got lucky. Because he went that extra mile.

This attitude, this fighting spirit, is in every Porsche that we've created since 1948. It's there in every detail and in every race we've won. It's also found in every idea. And in our engineers. Who continually surpass themselves. To achieve the one second that makes the difference between triumph and tears. For the 'Dr. Ing.' in our company name, and to reinvigorate Fascination sports car time and time again.

To us, it's never been about extra horsepower alone, but about more ideas per HP. It's about engines that are more efficient, not bigger. It's about a design that follows principles, not trends. It's about sports cars that can be driven day in, day out.

It's only when all these things come together that we can talk of Driven by Dreams. The core of the Porsche brand and of its future. This is what we are fighting for. Just as we did on day one. For a dream that will forever be in our heart.

We are dreamers. We dream of experiences. We dream of records.  
We dream of sports cars. Yet we are wide awake and fiercely determined.  
No destination is too far away to not be considered. No journey is too  
demanding to not be undertaken. No challenge is too big to not be accepted.  
The impossible? Is our inspiration. As thoroughbred optimists, we understand  
that limits mean nothing if you have the courage to overcome them. This is  
what drives us to keep moving forward. Day after day.

Dare forward.

## The Macan concept.

To what extent can suitability for everyday use be emotionally charged? And how far can you take this? The Macan is proof that there is practically no limit to this. Five doors, five seats, yet incomparable, unmistakable and unstoppable. The following applies to all the refinements, amendments and advancements that we have made since we launched the Macan in 2014: it is and remains the ultimate sports car among compact SUVs. A kick of endorphins in everyday urban life.

The exterior has been further refined with redesigned front and rear fascias. The new Macan models have powerful engines that not only drive their performance, but also their efficiency. The interior has been reconfigured. And offers drivers new, exclusive design options. After all, limits only exist in our minds.

Type.  
Not stereotype.

To be one in the crowd or The One in the crowd? Not an issue for our engineers. For those who created an icon like the 911. For those who designed the Porsche flyline. Design DNA that is unrivalled in the world. We have been honing these powerful, dynamic proportions for decades. We refine them. We continually reinterpret them. We adapt them. To a life that faces every challenge. And demands maximum differentiation. We have developed the new Macan models based on this benchmark. Unique characters. With a clear heritage: Porsche.

## Comfort zone. For outside your comfort zone.

Climb in. Drive off. Seek adventures. The interior of the new Macan is designed for maximum forward thrust – just as you would expect. Some drivers simply sit in their cars. Porsche drivers become at one with their vehicle. The interior architecture integrates the driver. The front sport seats convey the typical Macan feeling: while the driver may be sitting high above the road, they are still closely connected to it. They always have a good view of everything. And are always in control: thanks to perfect ergonomics. This has always been the ultimate goal of sports car construction. Even in the digital age, we have added a defining characteristic: the Porsche signature.

# Macan models.

Macan in Gentian Blue Metallic with 21-inch 911 Turbo Design Wheels

Macan S in Papaya Metallic with 21-inch GT Design Wheels painted in Satin Platinum

Macan GTS with GTS Sport Package in Python Green with 21-inch GT Design Wheels painted in Satin Black

## Macan.

- Side Blades in Carbon Fiber
- Front fascia painted in exterior color
- Roof spoiler painted in High Gloss Black
- Roof Rails painted in High Gloss Black
- Side window trims in matte Black
- LED Headlights including Porsche Dynamic Light System Plus (PDLS Plus)

- Porsche Advanced Cockpit
- Porsche Communication Management (PCM) including online navigation with 10.9-inch touchscreen display
- Sport steering wheel with gearshift paddles
- Leather Interior in Black and Mojave Beige with Interior Trim in Carbon Fiber
- Power Seats (14-way) with Comfort Memory Package

## Macan S.

- Adaptive Air Suspension including Porsche Active Suspension Management (PASM)
- Sport Exhaust System including Sport Tailpipes in Black
- Side blades with 3D texture
- Front fascia painted in exterior color
- Roof spoiler painted in High Gloss Black
- Side Window Trims in Silver
- LED Headlights including Porsche Dynamic Light System Plus (PDLS Plus)

- Porsche Advanced Cockpit
- Porsche Communication Management (PCM) including online navigation with 10.9-inch touchscreen display
- Heated Multifunction GT Sport Steering Wheel with gearshift paddles
- Leather Interior in Black with Interior Trim in Brushed Aluminum
- Door-Sill Guards in Brushed Aluminum, Illuminated
- Power Seats (14-way) with Comfort Memory Package

## Macan GTS with GTS Sport Package.

- Adaptive Air Suspension including Porsche Active Suspension Management (PASM) (Lowered 10 mm)
- Sport Exhaust System including Sport Tailpipes in Black
- Porsche Surface Coated Brakes (PSCB)
- Sport Design Exterior Mirrors with V-shaped base painted in High Gloss Black
- Side blades in High Gloss Black with 'GTS' logo in Python Green
- Sport Design Side Skirts
- LED Headlights in Black including Porsche Dynamic Light System (PDLS)

- Porsche Advanced Cockpit
- Porsche Communication Management (PCM) including online navigation with 10.9-inch touchscreen display
- Heated Multifunction GT Sport Steering Wheel with gearshift paddles, steering wheel rim in Race-Tex
- Interior Trim in Carbon Fiber
- GTS Interior in Black with Deviated Stitching in Python Green
- Adaptive Sport Seats (18-way) with Comfort Memory Package

The stated specification refers to the vehicles shown in this catalogue and some of it may be optional equipment.

# Exterior design.

The Macan models bear the distinctive Porsche design DNA. Whether the sloping roof line with its typical sports car contour. Or the sporty, broad-shouldered rear and its seamless taillight strip over the rear wheels.

The design of the front fascia has been reinterpreted. The architecture impresses with a completely new design element that provides a sporty emphasis on the width of the vehicle: the so-called inlay. Harmoniously integrated into the air intakes, yet still a visually impressive feature. To further

differentiate the new models, it is finished in exterior color (Macan, Macan S) or matte black (Macan GTS).

The side blades, a particular feature of the Macan, have received a makeover in terms of color and shape. On the new Macan and Macan S, they have a three-dimensional surface structure and are painted in Lava Black as standard; on the Macan GTS in Satin Black with a gloss black 'GTS' logo.

In the newly designed rear section, the black diffuser area has been extended upwards, making the new Macan models look even sportier. The rear view from the driver's seat is also impressive – thanks to the standard Sport Design Exterior Mirrors with a V-shaped mirror base.

19-inch Macan Wheels are also standard on the Macan, as are 20-inch Macan S Wheels in Dark Titanium with highly polished surfaces on the Macan S and new 21-inch RS Spyder Design Wheels in Satin Black on the Macan GTS. A wide range of wheels allows you to customize your new Macan in line with your wishes. For more information, please refer to page 56.

- 1 Macan S with 21-inch GT Design Wheels painted in Satin Platinum
- 2 Macan S with 20-inch Macan S Wheels in Dark Titanium with highly polished surfaces
- 3 LED Headlights including Porsche Dynamic Light System Plus (PDLS Plus)

What are absolutely crucial as you move forward? Precise instruments. Even in the very first Porsche, their ergonomics and readability played a vital role. A principle that we have taken a step further: the centrally positioned tachometer has a new inlay, derived from the 911.

The new analog clock in the middle of the dashboard is another strikingly prominent feature of the interior.

The three-dimensional arrangement of the controls is typical of the Macan and perfectly integrates the driver into the vehicle. Porsche Advanced Cockpit takes the ascending center console to a new level: finished in glass look, it is highly ergonomic, thanks to its logically grouped, touch-sensitive buttons that can also be operated via the 10.9-inch touchscreen display.

The steering wheels are also new: the multifunction sport steering wheel and GT Sport Steering Wheel

both feel sporty and allow manual shifting via gearshift paddles.

The power seats with electric eight-way adjustment of seat height, cushion and backrest angle and fore/aft position on both the driver and front passenger side offer a sporty, deep seat feel; emphasized by the seat centers in Sport-Tex (standard on the Macan and Macan S).

The optional 18-way Adaptive Sport Seats with Comfort Memory Package in the new Macan GTS also feature 'GTS' logos on the front headrests and seat centers in Race-Tex.

Interior design.

The interior of the new Macan has space for five. And even more space for your leisure activities, thanks to the split-folding bench seat. A multitude of options allow you to further personalize your Macan to your needs – whether sporty or exclusive. Another impressive addition to the interior of the new Macan GTS is the optionally available GTS Interior in Black with Race-Tex items. The material with motorsport genes is used on items that you touch frequently. It is robust and extremely easy to maintain and, therefore, perfect in a sports car.

You can also select optional contrast packages for the interior to match your chosen exterior color, creating an impressive splash of color. As well as maximum exclusivity, thanks to the extensive leather features.

# The new Macan GTS with GTS Sport Package.

1

2

3

4

The GTS Sport Package gives your Macan GTS more performance and an even more personalized look:

- 1 Exterior color: Python Green<sup>1)</sup>, rear fascia and Sport Design Side Skirts in Satin Black, 21-inch GT Design Wheels painted in Satin Black, Ultra High Performance Summer Tires (UHP), Sport Design Exterior Mirrors with V-shaped base in High Gloss Black
- 2 Heated GT Sport Steering Wheel with rim in Race-TEX
- 3 Side Blades in High Gloss Black with 'GTS' logo in Python Green
- 4 18-way Adaptive Sport Seats with Comfort Memory Package including 'GTS' logo on front headrests, GTS Interior Package with Deviated Stitching in Python Green and items in Race-TEX, Interior Trim in Carbon Fiber: dashboard trim and door trim (front and rear)

<sup>1)</sup> As well as Python Green, the following exterior colors are also available: White, Black, Carrara White Metallic, Jet Black Metallic, Volcano Grey Metallic, Dolomite Silver Metallic, Chalk

# Drive and transmission.

## 2.0-liter in-line four-cylinder turbo engine in the Macan.

This completely redeveloped engine follows an innate Porsche principle: getting the most out of even the smallest space. Its low weight on the front axle has dynamic advantages that are noticeable in everyday driving. Its high torque of 295 lb.ft. extends over a wide speed range. Maximum rpm is 6.800. Its high-pressure injection system with centrally positioned injectors allows the smallest amount of fuel to be injected multiple times – for maximum efficiency.

## 2.9-liter twin-turbo V6 engine in the Macan S and Macan GTS.

This engine is also designed for powerful everyday acceleration. One turbocharger per cylinder bank enables a direct response. Its maximum torque is achieved early on. Its lightweight design not only delivers greater performance, but also reduces emission values – thanks to the efficient fuel injection system. VarioCam Plus ensures improved efficiency and performance: a system that adjusts the camshafts and valve lift. For an even more emotional engine sound, you can specify an optional Sport Exhaust System, which is standard on the new Macan GTS.

### Macan.

261 hp  
0 to 60 mph in 6.0 secs  
Top track speed: 144 mph  
Maximum torque: 295 lb.ft.

### Macan S.

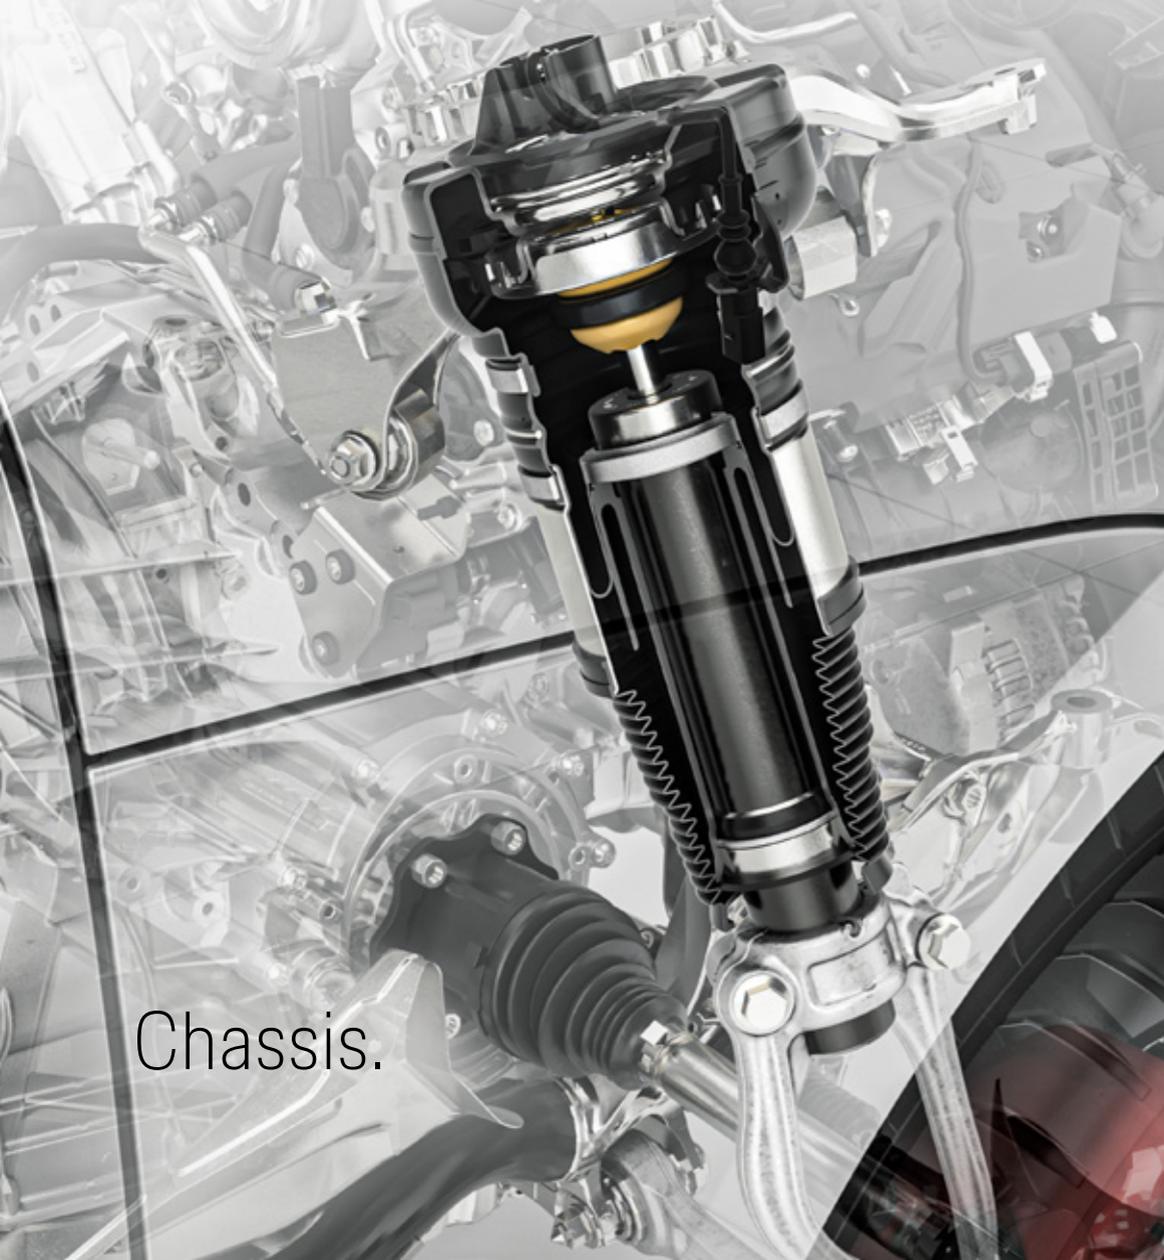

375 hp  
0 to 60 mph in 4.6 secs  
Top track speed: 160 mph  
Maximum torque: 383 lb.ft.

### Macan GTS.

434 hp  
0 to 60 mph in 4.3 secs  
Top track speed: 169 mph  
Maximum torque: 405 lb.ft.

Moving forwards. Here's how: the active all-wheel drive Porsche Traction Management (PTM) with electronically controlled multi-plate clutch provides a fully variable distribution of drive force between the drive axles. For high traction, agile performance and even in adverse conditions. The standard 7-speed Porsche Doppelkupplung (PDK) ensures extremely fast gear changes in automatic mode without interrupting the power flow. Or you can change gear manually via the gearshift paddles on the steering wheel.

## Chassis.

### **Adaptive Air Suspension.**

For maximum comfort and tremendous dynamic performance, optional Adaptive Air Suspension including PASM is available for the new Macan models. Thanks to the optimum balance between driving dynamics and comfort, the system adapts perfectly to a wide range of situations. The self-levelling function offers you a choice of three ground clearance levels: High Level I, Normal Level and Low Level I. Loading Level is especially practical: only the rear end lowers 30 mm (1.18 in.) from Normal Level to make it easier to load the car.

For even greater driving dynamics and exclusively developed for the new Macan GTS: the new standard Sport Adaptive Air Suspension including Porsche Active Suspension Management (PASM). With this set-up, your new Macan GTS is 10 mm (0.39 in.) lower than with the optional air suspension on the new Macan and Macan S. The shock absorber layout is clearly designed for high performance.

### **Porsche Active Suspension Management (PASM).**

PASM is an electronic damping control system that controls the damping force based on current road conditions and driving style. You can choose between three modes that adapt to the current situation: 'Normal', 'Sport' and 'Sport Plus'. For increased stability and comfort.

### **Sport Chrono Package including mode switch.**

This optional system provides even sportier tuning of the chassis, engine and transmission. With the redesigned mode switch and Sport Response button on the steering wheel, you can choose from four driving modes: 'Normal', 'Sport', 'Sport Plus' and 'Individual'. The Launch Control function ensures optimum acceleration from a standstill.

### **Sport Response button.**

This feature of the Sport Chrono Package produces an extremely direct response at the touch of a button. The engine and transmission instantly deliver optimum performance. Accelerator pedal commands are implemented more spontaneously and maximum acceleration is achieved more quickly. After a maximum of 20 seconds, the vehicle switches back to the previously selected driving mode. The Sport Response function can be activated as often as required.

### **Porsche Torque Vectoring Plus (PTV Plus).**

PTV Plus is a system intended to improve driving dynamics and stability, especially when cornering. Thanks to its variable torque distribution on the rear wheels and electronically controlled rear differential lock, steering behavior and precision in particular are improved.

### **Off-road mode.**

By activating the off-road button, all relevant systems switch to a traction-optimized off-road terrain program. As a result, your Macan adapts optimally to off-road use, improving driveability.

Brakes.

1

The super-sized brakes of the new Macan models are finely tuned for optimum performance, even during continuous use. Typical distinguishing features are the standard black brake calipers on the Macan and red units on the Macan S and Macan GTS.

**Porsche Surface Coated Brakes (PSCB).**

This combination of cast-iron brake discs and ceramic coating not only boasts impressive brake calipers, other features also include improved corrosion resistance of the brake discs, even after a longer period of standstill, and considerably less brake dust formation. The result: the wheels and brake system stay clean for longer. Standard on the new Macan GTS, exclusively with red brake calipers. In white for all other models.

1 Macan GTS with red-painted Porsche Surface Coated Brake (PSCB)

## Headlights.

The standard LED Headlights including Porsche Dynamic Light System (PDLS) fitted on the new Macan models offer the perfect combination of design and functionality. And optimally illuminate the road ahead at all times. Unmistakably Porsche: the four-point daytime running lights in the LED headlights and the four-point brake lights that are integrated into the LED technology of the taillight strip. Unmistakably Macan GTS: the front and rear tinted lighting system. Also onboard: dynamic and static cornering lights, speed-sensitive headlight range control and adverse weather function.

**Porsche Dynamic Light System Plus (PDLS Plus).** The PDLS Plus function is optionally available for the main headlights of the new Macan models. This includes a dynamic main beam for enhanced illumination of your surroundings. So you see what's going on around you all the sooner.

### Porsche Advanced Cockpit.

The Porsche Advanced Cockpit control concept is progressive: the ascending center console allows the driver to move quickly between the steering wheel and compact gear selector. Its Direct Touch Control features an interface in glass look with touch-sensitive buttons for direct access to the most important functions. The high-resolution 10.9-inch touchscreen display is integrated into the dashboard.

### Round instruments.

Typical Macan, typical sports car: the three-tube instrument cluster with its striking, centrally positioned tachometer, whose new design has been adopted from the iconic 911. The high-quality analog clock in the middle of the dashboard is a new feature.

### Steering wheels.

The new Macan models also now feature a new generation of steering wheels. Their small diameter and leather trim lining lend them a sporty, comfortable feel. For a motorsport feel, simply

specify the optional GT Sport Steering Wheel (standard on the Macan GTS). Its thumb rest, top center marking and uniquely designed spoke trims symbolize its motorsport DNA. The gearshift paddles are finished in Dark Silver.

Cockpit.

Infotainment.

For those who dare to venture into the unknown, a compass is a must. Porsche Communication Management (PCM) is the central control center in your vehicle. PCM has a high-resolution 10.9-inch touchscreen display with integrated proximity sensor that is simple and convenient to use.

The Navigation & Infotainment Services help you to reach your destination faster, thanks to route calculation with up-to-date online maps and Real-time Traffic Information. Using the voice recognition interface you can easily search for information, such as the weather at your destination, and have current news on the economy, politics and sport read aloud to you.

#### **Sound Package Plus.**

As the standard sound system in the Macan models, Sound Package Plus ensures an excellent sound: 10 loudspeakers with 150-watt output. The acoustic pattern in the vehicle interior is optimally adapted to the driver and passengers by the amplifiers integrated into PCM.

#### **BOSE® Surround Sound System.**

This optional system has been optimally adapted to the Macan models. A total of 14 loudspeakers, including a subwoofer and center speaker, and 14 amplifier channels with a total output of 665 watts deliver an impressive sound experience. BOSE® SoundTrue enhancement technology delivers even better audio quality and dynamics. It breathes new life into compressed music formats, such as MP3 files, for example. The result: a clearer and more spatially tangible sound.

#### **Burmester® High-End Surround Sound System.**

The Burmester® High-End Surround Sound System, optimally adapted to the Macan, delivers a limitless sound experience. The figures alone sound impressive: 16 amplifier channels with a total output of more than 1,000 watts, 16 loudspeakers including an active subwoofer with 300-watt class D amplifier, a total diaphragm surface area of more than 2,400 cm<sup>2</sup> and a frequency response of 30Hz to 20 kHz. Crossover technology has been carried over almost unmodified from Burmester® high-end home audio products. Air-motion transformers (AMT) ensure unmistakably fine, clear and undistorted high-frequency sound reproduction with excellent level stability. Analog and digital filters have been optimally defined for their installation location. The sound enhancer also optimizes the tone of data-compressed music files.

Wherever you dare to roam, Porsche Connect is always your perfect co-pilot. Use the My Porsche App to synchronize your destinations and calendar entries. While driving, you can enjoy your favourite music via two USB data and charge ports in the front as well as Bluetooth® – for the perfect soundtrack to any situation. You can also keep an eye on your Macan by calling up vehicle data and controlling certain vehicle functions using the remote services of the My Porsche app.

**Apple CarPlay®.**

With Porsche Connect you use numerous apps on your iPhone® via PCM. With the wireless Apple CarPlay® connection, apps such as phone, music or news, can be operated easily and safely while on the move.

**My Porsche.**

My Porsche is your vehicle's central online platform, where you can configure the Porsche Connect services and view the current vehicle data.

**Porsche Connect Store.**

Whether extending your contract or adding other Connect services, the Porsche Connect Store is the ideal place: visit [www.porscheusa.com/connect-store](http://www.porscheusa.com/connect-store) and discover more about what Porsche Connect has to offer.

Porsche Connect services vary by model and country. The information on this page is intended to provide a general overview. For service availability in your vehicle, log into the Connect Store using your Porsche ID.

Porsche Connect.

Assistance systems.

Porsche assistance systems are the ideal companion for people who want to move forward. After all, they relieve you of your tasks and are aimed at active, sporty driving, allowing you to enjoy the experience you expect of a Porsche. We also have suitable answers to the demands of everyday urban life. Such as standard ParkAssist front and rear, as well as many other optional systems.

#### **Self Steering ParkAssist.**

Those who dare to move forward will always find a way. The optional new Self Steering ParkAssist is the perfect companion for the urban jungle. It will help you locate and identify suitable parking spaces and takes over steering at the touch of a button. For perceptibly more comfort when reverse parking in parallel and perpendicular parking spaces.

#### **Reversing camera and Surround View.**

The standard reversing camera facilitates precise reverse parking and maneuvering. Help is provided in the form of a camera image and dynamic guidelines on the PCM touchscreen display. With optional Surround View, four cameras located in the front fascia, exterior mirrors and rear generate an all-round image from a bird's eye perspective.

#### **Adaptive Cruise Control (ACC).**

This system regulates your speed fully independently in line with the speed of the vehicle in front – down to a standstill if necessary. When the road ahead is free again, it will accelerate back up to the cruising speed originally set. A warning of an impending collision with vehicles can be issued, in accordance with system limitations. If required, the system can also intervene in the braking process, to reduce the collision speed or possibly avoid a collision.

—  
See Important Limitations of Assistance Systems, page 66.

**Climate control.**

What is the most important factor as you move forward? Staying cool, no matter what happens. Three-zone automatic climate control is fitted as standard. An active Carbon Fiber filter traps particles, pollen and odors. The optional ionizer ensures excellent air quality. As air passes through it, germs and other pollutants are reduced.

**Thermally and Noise Insulated Glass.**

An optional heated windshield is available for the new Macan models. The glass panels of the optional panoramic roof system create an extremely bright and pleasant interior lighting effect. In addition, the front portion slides open or tilts to a raised position. An additional roll-up blind also shields you from strong sunlight. Privacy as well as thermally and noise insulated glass improve both comfort and appearance.

**Seats.**

As well as two front seats, the Macan also has a folding rear bench with two comfortable outer seats and a center seat. The standard 8-way seats made of leatherette with seat center sections in Sport-Tex are comfortable and ergonomic. The 14-way seats upholstered in smooth-finish leather ensure an extremely comfortable seating position, while their comfort memory package offers additional

adjustment capabilities. The 18-way Adaptive Sport Seats adjustment provide maximum comfort and sportiness – especially for dynamic driving: with raised side bolsters and the ability to memorize a large number of settings, as well as smooth-finish leather upholstery.

Comfort.

# Everyday use.

## Luggage compartment.

The large luggage compartment of the new Macan models is prepared for a wide variety of uses and boasts a capacity of 17.2 cu.ft. A storage compartment to the side offers additional space. The rear bench seat folds down with a ratio of 40:20:40. With the seats fully folded, the available capacity increases to 53 cu.ft. The removable luggage compartment cover provides protection against sunlight and offers additional privacy. The ski bag from Porsche Tequipment can also be removed. It can be used outside of the vehicle for carrying equipment or cleaning. For loading convenience, the optional Adaptive Air Suspension enables you to lower the rear end of the vehicle by 30 mm (1.18 in.) using a button in the luggage

compartment. The tailgate features a heated glass panel. Its adjustable opening height can be memorized so that it always stops at a safe distance from your garage ceiling, for example.

## Roof transport system.

Roof rails are available as a factory-fitted option on request. They blend harmoniously into the vehicle's dynamic design and are a prerequisite for the optional roof transport system, which includes lockable cross members that are compatible with all Porsche roof modules. The load-bearing parts in aluminum are designed to carry a maximum load of 165 lbs. A range of aftermarket modules is available from the Porsche Tequipment accessories program.

## Towbar system.

When not required, the towball of this optionally available electrically extending towbar system disappears under the rear at the push of a button. The towbar is approved for a high braked trailer load of up to 4,409 lbs. As standard, the vehicle comes ready-equipped with all the necessary preparations.

# Porsche Exclusive Manufaktur.

Our wealth of experience goes back a long way. Since the very beginning, we at Porsche have been dedicated to realizing customer wishes. Known until 1986 as the 'Sonderwunschprogramm', then 'Porsche Exclusive' – and now Porsche Exclusive Manufaktur.

We love what we do. We love our work. Every seam, every square inch of leather, and every single other fine detail receives the same devotion. We transfer our experience and passion together with your inspiration to the car – and that's how we bring dreams to life. Directly from the factory.

None of this would be possible without originality, enthusiasm and attention to detail, and it all starts with your personal consultation. That's because we always keep one goal in mind: to fulfil your particular wishes and requirements, turning 'a' Porsche into 'your' Porsche.

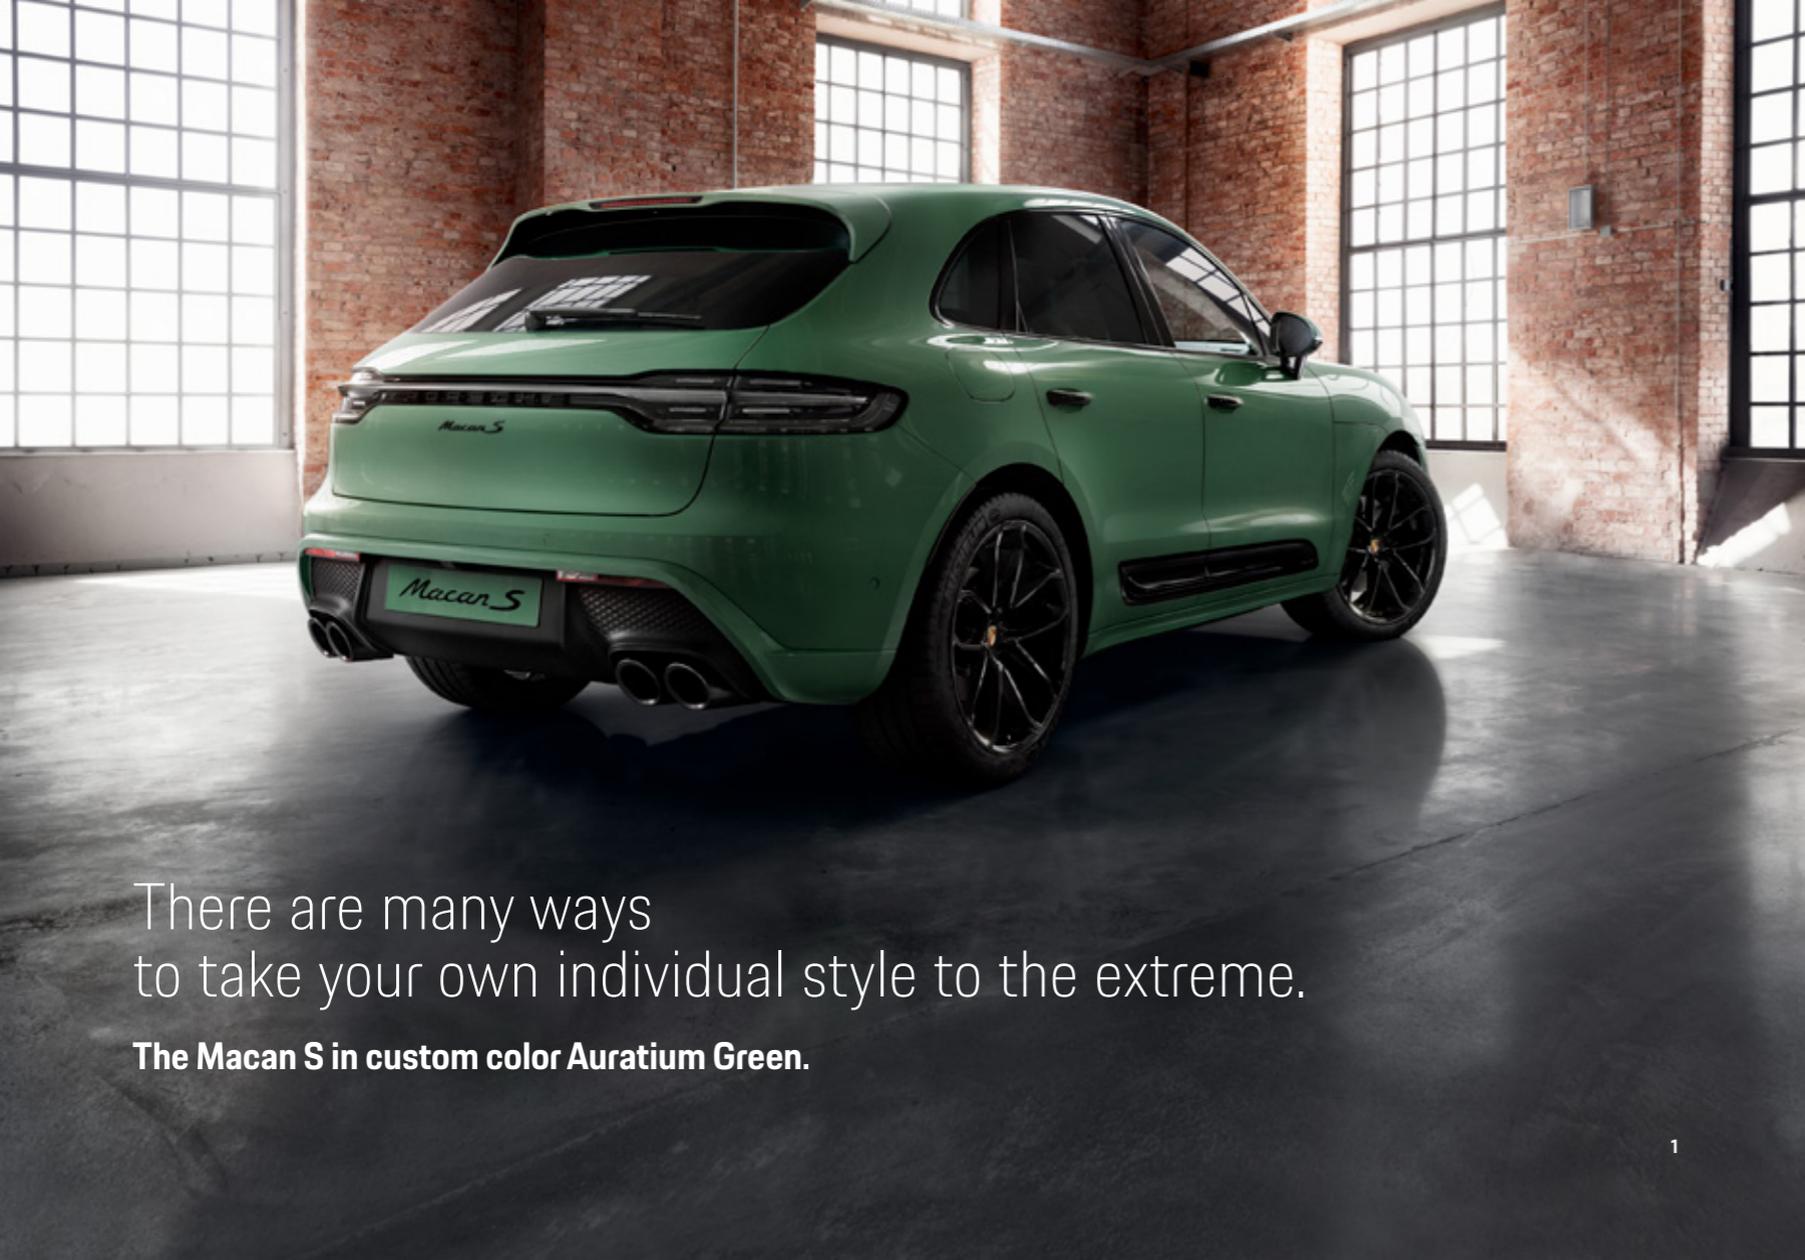

And how do we turn your dreams into reality? With composure and meticulous care, by means of precision handcrafting and the use of exquisite materials such as leather and Carbon Fiber. Added value is achieved through dedication and finesse. Or to put it another way: the intersecting of sporty performance, comfort, design and your personal taste. A Porsche with your signature touch.

We offer a wide range of personalization options. Visually and technically. For the interior and the exterior. From a single alteration to extensive modifications. Your inspiration is our passion.

Be inspired by our examples on the following pages and visit [www.porscheusa.com/exclusive-manufaktur](http://www.porscheusa.com/exclusive-manufaktur) to learn everything you need to know about configuring these extraordinary vehicles. We would also be happy to advise you in a personal conversation – we look forward to your visit.

Your inspiration.  
Our passion.

There are many ways  
to take your own individual style to the extreme.

# Porsche Tequipment.

With Porsche Tequipment products developed specifically for your Macan, you can style it entirely to your own preference. Right from the start, the same rules that apply to our vehicles also apply to the Porsche Tequipment products: developed, tested and proven at the Development Center in Weissach. By the same Porsche engineers and designers who made your car. Designed with the complete vehicle in mind and precisely tailored to your Porsche.

And your original car warranty? It will remain completely intact, whichever Tequipment products you ask your authorized Porsche dealer to fit.

To discover more about Porsche Tequipment, please consult your authorized Porsche dealer. Or visit [www.porscheusa.com/tequipment](http://www.porscheusa.com/tequipment) to view the information online. Scan the QR code to go straight to our Tequipment accessories finder, where you can view all the products in detail.

## 1 Porsche Performance roof box

211.4 x 90.8 x 43.4 cm in High Gloss Black with 'PORSCHE' logo on the back in Silver, maximum recommended load: up to 165 lbs, capacity of 17.2 cu.ft., can be opened from either side, with accompanying protective cover with 'PORSCHE' logo.

## 2 Car care products

Interior and exterior care products optimally suited to your Porsche.

## 3 Summer and winter wheel and tire sets

For enhanced individuality, agility. And for even greater driving pleasure.

# Porsche Car Configurator.

The Macan dream comes in many shapes and colors. The Porsche Car Configurator allows you to quickly and intuitively discover which dream suits you the best.

In the search for your genuine dream car, you can now not only create your personal configuration on your computer and tablet, but also on your smartphone. Using freely selectable perspectives and 3D animations on your desktop. Individual recommendations help you to make the right decision.

Visit [www.porscheusa.com](http://www.porscheusa.com) to access the Porsche Car Configurator and learn more about Fascination Porsche.

### The Porsche Experience Center Atlanta\*

The Porsche Experience Center Atlanta offers guests an opportunity to increase their driving prowess with challenging test track and training facilities. Visit [www.porschedriving.com](http://www.porschedriving.com) or call 1-800-PORSCHE to learn more.

### Porsche European Delivery

Imagine touring the original factory and then being handed the keys for an even more gratifying opportunity—touring Europe in your brand new Porsche vehicle. What happens next is up to you. Contact your authorized Porsche dealer for more information.

### Porsche Exclusive Manufaktur\*

Realize your vision of the perfect Porsche with our factory customization program. From styling enhancements to performance upgrades, all modifications are uniquely handcrafted for your Porsche vehicle. Please visit [www.porscheusa.com/exclusive](http://www.porscheusa.com/exclusive) for more information.

### Porsche Tequipment\*

Personalize your Porsche vehicle at any time with our range of aftermarket accessories. You will also find all our available products online at [www.porscheusa.com/tequipment](http://www.porscheusa.com/tequipment).

### Porsche Driver's Selection\*

With products ranging from fashion and accessories to tailored luggage, this unique collection combines quality and style with everyday practicality. Visit your authorized Porsche dealer or shop online at [www.porscheusa.com/shop](http://www.porscheusa.com/shop).

### Porsche Travel Experience

Join us for all-inclusive Porsche vacations and exhilarating driving experiences that awaken a sense of adventure in even the most seasoned travelers. Visit [www.porschedriving.com/travel-experience](http://www.porschedriving.com/travel-experience) for more information.

### Porsche Track Experience-USA (PTX-USA)\*

There's no better place to hone your driving skills than in the cockpit of a Porsche. For both Porsche owners and enthusiasts, we offer introductory level through race licensing courses. For more information call 770-290-7000 or visit [www.porschedriving.com/track-experience](http://www.porschedriving.com/track-experience)

### Porsche Clubs

Since the first Porsche Club was founded in 1952, its number has grown to 660 chapters, with a total of 195,000 members worldwide. To find out more, go to [www.porscheusa.com/porscheclub](http://www.porscheusa.com/porscheclub).

### The Porsche Experience Center LA\*

At the Porsche Experience Center LA, guests can navigate through our 1.3 mile Handling Circuit, off-road courses, and low friction modules that demonstrate the core of Porsche engineering. Visit [www.porschedriving.com](http://www.porschedriving.com) or call 1-800-PORSCHE

### Porsche Roadside Assistance

Enjoy peace of mind with our exclusive breakdown and accident recovery service. Membership is free when you buy a new Porsche vehicle.

### Porsche Approved Certified Pre-Owned

Only the best Porsche cars earn the right to be called "Certified." An 111-point inspection, a 2-year Unlimited Mile Warranty,\*\* and 24-Hour Roadside Assistance make this program one-of-a-kind. Contact your authorized Porsche dealer for details.

### Porsche Financial Services (PFS)

Our range of financial and vehicle protection products offers Porsche owners support at every turn. Porsche Financial Services offers you the perfect financing and vehicle protection solutions. Learn more at [www.porscheusa.com/pfs](http://www.porscheusa.com/pfs) or your authorized Porsche dealer.

### Christophorus

Christophorus magazine covers every aspect of Porsche offerings and the overall lifestyle of our owners and enthusiasts.

### Porsche Classic

Your specialized source for genuine Porsche parts as well as restoration services for all Porsche classics. Visit [www.porscheusa.com/classic](http://www.porscheusa.com/classic) to find out more.

### Porsche Museum

More than 80 vehicles at our headquarters in Stuttgart-Zuffenhausen, Germany, await to take you on a journey through Porsche history. See icons such as the 356, 911, and 917 presented in an atmosphere you can't experience anywhere else.

### Porsche Online

Go to [www.porscheusa.com](http://www.porscheusa.com) for all the latest news and information from Porsche.

Follow us on:   

\* You can obtain the latest brochures for Porsche Experience Center Atlanta, Porsche Experience Center Los Angeles, Porsche Exclusive Manufaktur, Porsche Tequipment, Porsche Driver's Selection, and Porsche Track Experience-USA from your authorized Porsche dealer.  
\*\* 2-year/Unlimited Mile Warranty coverage after the expiration of the new vehicle limited warranty or from the date of sale if the new vehicle warranty has expired.

Acceleration 0–60 mph	4.3 secs
Acceleration 0–60 mph (seconds) with Launch Control <sup>1)</sup>	4.1 secs

<sup>1)</sup> In conjunction with the optional Sport Chrono Package.

### A Few Important Words About Porsche Driver Assistance Systems ...

- 1 None of Porsche's Driver Assistance Systems can prevent accidents or loss of control.
- 2 No Driver Assistance System is ever a substitute for attentive driving. It is the driver's responsibility to be observant and in control of the vehicle at all times.
- 3 Please see your vehicle's owners' manual for further details about, and important limitations of, each of the specific systems described below.

### ACTIVE LANE KEEP

- 1 Active Lane Keep may not detect lane markings in certain road, weather, and driving conditions.
- 2 System is available only in conjunction with active Adaptive Cruise Control (ACC).

### ADAPTIVE CRUISE CONTROL

- 1 Adaptive Cruise Control should not be used in unfavorable road conditions and poor weather conditions.
- 2 Adaptive Cruise Control automatically maintains a set speed and a set distance at a speed above approximately 19 mph–130 mph.

### AUTO EMERGENCY STOP

- 1 Auto Emergency Stop depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.

### PORSCHE DYNAMIC LIGHTING SYSTEM

- 1 Static cornering lights – At speeds of up to 80 mph static cornering light is switched on when the steering wheel is turned.
- 2 Dynamic cornering light – Above a speed of around 3 mph, the low beam or high beam headlights are swiveled in the direction of the curve to illuminate the road more clearly, depending on the speed of the vehicle and the extent to which the steering wheel is turned.

### PORSCHE DYNAMIC LIGHTING SYSTEM (PLUS)

- 1 High Beam Assistant is switched on at between 20 mph and 37 mph.

### HEAD-UP DISPLAY

- 1 The driver's view of the information in the head-up display may be impaired by the following factors:
  - Sunglasses with certain polarizing
  - Wet roads
  - Unfavorable lighting conditions

### PORSCHE INNO DRIVE INCLUDING ADAPTIVE CRUISE CONTROL

- 1 InnoDrive depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.
- 2 Construction zones, traffic flow, and other road system changes are beyond the control of Porsche Cars North America. Complete detailed mapping of lanes, roads, streets, toll roads, tollbooths, highways, road signs, and so forth is impossible. Therefore, you may encounter discrepancies between the mapping and the actual location and conditions you encounter. Always pay careful attention to the road, give precedence to directional signs on the road and not the system, and do not drive while distracted.

### INTERSECTION ASSIST

- 1 This system detects only other vehicles, but not people, cyclists, or animals, for example.

### LANE CHANGE ASSIST

- 1 Lane Change Assist operates above a driving speed of approximately 10 mph.
- 2 Rear Turn Assist – Supports Lane Change Assist only when driving off and on the vehicle side on which the turn signal was actuated. Active at speeds up to approximately 12 mph.

### LANE KEEP ASSIST WITH TRAFFIC SIGN RECOGNITION

- 1 Lane Keep Assist may not detect lane markers in certain road, weather, or driving conditions. Please see owner's manual for further details and important warnings about limitations of the system.
- 2 This system depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.
- 3 Traffic Sign Recognition may not always see or understand every sign. It depends upon a clear, unobstructed view of the road ahead, and well-maintained and clean road signs of generally recognized types.
- 4 Lane Keep Assist may be passive if the vehicle speed is below the activation speed of approximately 40 mph.

### NIGHT VISION ASSIST

- 1 Night Vision Assist does not prevent accidents. The system may not represent objects as the eye does. It will not detect persons or animals under certain lighting and temperature conditions, and it cannot detect inanimate objects in the road.
- 2 Night Vision Assist detects persons and animals when it is sufficiently dark and at an ambient temperature below 82°.

### PARK ASSIST (FRONT AND REAR) WITH VISUAL AND AUDIBLE WARNING

- 1 ParkAssist cannot detect sound-absorbing obstacles such as powdery snow, clothing made from fabric, skin or fur; sound-reflecting obstacles such as glass surfaces, flat painted surfaces, very thin obstacles, i.e. thin posts or obstacles above and below the sensors.
- 2 ParkAssist is activated automatically up to a speed of approximately 10 mph. and when operational readiness is established in the following situations: Reverse gear engaged or distance in front is less than approximately 32 in. or rolling backward is detected.
- 3 Reversing camera – The objects shown by the camera appear distorted. The image from the rear view camera does not show the entire area behind the vehicle.
- 4 Surround View – The objects shown by the cameras appear distorted. Many of the screen windows do not show the entire area around the vehicle.

### REMOTE PARK ASSIST

- 1 Remote Park Assist can help you park your vehicle remotely. However, it may not function correctly if one or more of the parking sensors are damaged, dirty, covered, or exposed to weather conditions (snow, fog, heavy rain) that might interfere with sensor operation. Before using, always inspect the parking area with your own eyes to ensure that it is clear of items that might be harmed or might harm your vehicle.

### TRAFFIC JAM ASSIST

- 1 Traffic Jam Assist supports the driver when driving in traffic jam situations or in slow-moving traffic in a speed range below approximately 40 mph.

### WARN AND BRAKE ASSIST (COLLISION AND BRAKE ASSIST)

- 1 Warn and Brake Assist cannot prevent most collisions, although it may help to reduce their severity.
- 2 In addition, Warn and Brake Assist may not detect every object in the road.
- 3 The system may not operate if certain evasive maneuvers are performed by the driver.
- 4 The system is available as of walking speed and can react to pedestrians or cyclists up to a speed of approximately 53 mph.
- 5 The function may be restricted or unavailable up to 10 seconds after establishing operational readiness, and other instances.

### WET MODE

- 1 WET Mode depends on sensors in the front wheel arches. It cannot provide assistance if there is too much water present, if the vehicle is driving too fast, or if the sensors are obstructed by dirt, excessive water or other obstructions.
- 2 WET Mode cannot detect or prevent aquaplaning.

Not all the Driver Assistance Systems described in this brochure are installed or available on every model. Some Driver Assistance Systems are optional at extra cost. Some Driver Assistance Systems require the selection of other systems or options at additional cost. Some Driver Assistance Systems are not available in combination with others. Ask your authorized Porsche dealer for details about the models and systems in which you are interested.
